For so many amputees around our world the provision of a Jaipur Limb or Foot not only gives Mobility but gives Independence and a New Life.

A NEW LEG = A NEW LIFE

HOW YOUR HELP MAKES A DIFFERENCE

BANGALORE Yet again the Club has run a MEGA LIMB CAMP and two of the Trustees have been in attendance to witness, yet again, the superb results which have meant 2400 persons with mobility problems receiving treatment. Not all have a NEW Limb as some are children replacing the one they have outgrown. Many others are not suitable candidates, but have other medical issues and they receive Calipers or a Wheel chair to make a huge difference to their lives. Any one fortunate to have been there will remember for ever the sheer happiness that prevails as they make those new steps into tomorrow. Of course it does not happen easily. Running such a camp over 10 days with the medical support and catering for such a large gathering always available. In fact the total funds required by the organising Rotary Club is almost 50,000 US Dollars plus the non stop assistance of all the members in preparing the event, maintaining the quality and finally closing down the huge camp site. Our task, in providing help, is in promoting this annual event and obtaining the support of many clubs across RIBI and from the public at large.

ANOTHER PROJECT In Africa it is not practical, because of very different transport issues, to run Camps. It is necessary to create small orthopaedic units, usually attached to a local hospital or medical unit. Typical of such a project is that currently underway in Kisangani in the Democratic Republic of Congo. A UK Physiotherapist Christine Phillips serves as a volunteer at the Nyankunde Hospital and had seen the effectiveness of the Jaipur Limb. Trustee Don Short helped make contact with Doctors in the Hospital Management team. Travelling there, Don evaluated the options for premises, including restoration of a building destroyed in a local war. He arranged meetings with all concerned including Rotary Club Bunia Ville with whom he was able to complete a formal Memorandum of Understanding (MOU) That was also agreed with the Hospital Executives. RJLP gave approval to fund the building work. Budget approved was for Restoration of Building = 42,000 US Dollars from RJLP (see below)

Total budget cost of US109,500 of which some US67,500 is Global Grant Aidable Income received now covers costs with RC Newport Pagnell being the Global Grant sponsor and contributing some US15,000 to date. The project is also Inner Wheel D11’s annual project and DDF has been approved from D1160, D1260 and D9150. RC Bunia Bille has contributed and the RJLP contribution of US42,000 is taken from the Ken Gambles legacy. Some 2 years hard work by Don to finalise this wonderful development where nothing had previously existed.

YOU Can Help Make a Difference too.

For so many amputees around our world the provision of a Jaipur Limb or Foot not only gives Mobility but gives Independence and a New Life.
This depot has been set up to overcome the problems faced by all the JLP workshops based in Africa when materials are required. These workshops rarely have sufficient funds to buy in quantity at reasonable prices from India. It is, of course, necessary to buy in large quantities to justify the high cost of air transport. Their second problem is that the process of getting quotations, ordering, finalising payment and delivery takes at least two months and often much longer. Having a Central depot where they can order small quantities of materials at reasonable prices is critical to their successful operation. In addition they can get next day deliveries via local bus services so they can continue the production of limbs RC Kyambogo will be the co-signatories to the US bank account administered by Dr. Wanume at GLRC in Kampala. Workshops will pay in advance for the materials at cost plus carriage and a 4% handling charge. The organisation will also enable the centre to order in large quantities from BMVSS in India as required. A worthwhile project now completed.

ZIMBABWE  The project to establish a Centre at RESCU Harare began in 2009. This extended period of over 6 years to completion is indicative of the checking necessary to ensure a long term facility and all the costs are full justified. Sponsored by RC Hamble Valley and RC Hunyani the premises have been completed and with the help of our Trainer Robster Nyirenda from Malawi the Orthopaedic Technician has been recruited and trained. Exemption from Customs Duty has, after long delay, finally been approved by the Government and materials for stock from BMVSS are arrived in December, RC Guildford assisted with the overall funding and D1110 and 9210 provided DDF funds. The final commissioning visit will be done by a Trustee with funds to pay for that already held by the unit. A sorely needed centre now fully ready to go.

The NEW Limb Development
This picture was in the previous newsletter but is repeated here to show what is still being done to enhance the capability of centres and camp workshops. As most readers will understand a child fitted with a leg will need constant renewal to match the growth of the individual. That can mean at least 3 visits to a centre or camp every year to be fitted for normal growth of the child. The replacement of the foot is different and requires just a few wood screws to replace the old unit with a new foot sent by some type of carrier. Now with the extendable leg, as pictured, a small adjustment locally can be made as required thus saving a lengthy journey to a fitting centre. Savings in cost and time for this superb modification to the Limb.
ONE SPECIAL DAY IN THE LIFE OF A LITTLE GIRL

Lekha is a sprightly eight year old studying in the 4th standard. She lives in Chittoor, a town about 200 Km away from Bangalore. Her father works in a flour mill there. About 2 years ago she went to her father's place of work. While playing there her right hand got caught in machinery and she lost part of her forearm and hand.

Late on the night of 2nd Jan 2016 Lekha, along with her parents, caught a bus to Bangalore. They arrived at Ganeshbagh, Infantry Road, where the Rotary Club of Bangalore Peenya were holding their annual Mega Limb Camp at 5 AM. They were warmly received, given a place to rest and later were served breakfast.

By 10 AM she had registered for the camp, had been assessed and was in the queue for an LN-4 forearm prosthesis. **At 11 AM with a huge grin she was writing her name holding a pen in her new right "hand"!**

After tearful expressions of gratitude, the family were arranging to catch a bus back home, hoping to reach Chittoor the same evening. Not a bad day's work thanks to the Ellen Meadows Foundation of America and the Rotary Club of Bangalore Peenya.

SPEAKERS FOR YOUR EVENTS OR MEETINGS

If YOU would like a Speaker Panel member to come and tell your group with whom you have an interest, more about our work in India, Africa or wherever needed around the world, then ............Contact Secretary Margaret

Support material is always available and all Trustees are contactable for update information
Conference or Event Promotion

Units, as shown, can be provided on loan for any event as an aid to promote the RJLP. DVD’s suitable for club or other group meetings or displays can also be provided ………

Table Top Display,
Stand-up Banners  Posters  Display Limbs, Feet & Hands available

Extra leaflets or Newsletters are also available
Contact – The Secretary or P/R Officer

Donations to:- Treasurer:- Ron Marshall PDG, - 33 Grosvenor Avenue, Alsager, Stoke on Trent. ST7 2BZ  01270 875926
Speaker or other requests:- Secretary:- Margaret Webb - 3,The Chase, Bishop’s Stortford, Herts CM23 3HT - 01279 503225

The Trustees are very conscious of the need for watchful approval of projects in line with existing finances and expectation of future donations to maintain both the level and the quality of work required to fulfil the many needs around us.

Pub collections organised by the brewers of Jaipur Pale Ale
Completion of the THORNBRIDGE Brewery Sponsorship

George Buckley PDG D1110. Although not a Trustee, George was a significant supporter of RJL. He was, as most are aware, disabled and quite frequently wore his other Jaipur Limb at Conferences and other meetings to display its value. He had specific interests and involvement in charitable work in Romania and also many parts of Africa and has helped to support a number of projects over the years. Sadly missed following his death after a period of serious illness in Hospital. His wife Joyce arranged that all funeral donations would be in aid of RJL
